Sommario/riassunto	Between 1945 and 1948, more than a quarter of a million Jews fled countries in Eastern Europe and the Balkans and began filling hastily erected displaced persons camps in Germany and Austria. As one of the victorious Allies, Britain had to help find a solution for the vast majority of these refugees who refused repatriation. Drawing on extensive research in British, American, and Israeli archives, Arie J. Kochavi presents a comprehensive analysis of British policy toward Jewish displaced persons and reveals the crucial role the United States played in undermining that policy. Kochavi argues that the United States' policy was instrumental in creating a situation where Britain was compelled to accept the refugees, leading to a policy that was both ineffective and ultimately disastrous for the refugees themselves.
