1.	Record Nr.	UNINA9910455362103321
	Titolo	The fruits of empirical linguistics . Volume 2 Product [[electronic resource] /] / edited by Sam Featherston, Susanne Winkler
	Pubbl/distr/stampa	New York, NY, : Mouton de Gruyter, 2009
	ISBN	1-282-18803-8
		9786612188039
		3-11-021615-9
	Descrizione fisica	1 online resource (272 p.)
	Collana	Studies in Generative Grammar [SGG] ; ; 102
	Altri autori (Persone)	FeatherstonSam
		WinklerSusanne <1960->
	Disciplina	410.285
	Soggetti	Computational linguistics - Methodology
		Discourse analysis - Data processing
		Electronic books.
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Frontmatter -- Table of contents -- German verb-first conditionals as unintegrated clauses:A case study in converging synchronic and diachronic evidence -- Optionality in verb cluster formation -- Clitic placement in Serbian: Corpus and experimental evidence -- Explorations in ellipsis: The grammar and processing of silence -- Comparatives and types of þonne in Old English: Towards an integrated analysis of the data types in comparatives derivations -- Context effects in the formation of adjectival resultatives -- New data on an old issue: Subject/object asymmetries in long extractions in German -- Parallelism and information structure: Across-the-board extraction from coordinate ellipsis -- An empirical perspective on positive polarity items in German -- First-mention definites:More than exceptional cases -- Partial agreement in German:A processing issue? -- Backmatter
	Sommario/riassunto	The second volume of the two-volume set The Fruits of Empirical Linguistics focuses on the linguistic outcomes of empirical linguistics. The contributions present some of the insights that linguists can gain by applying the new methods: progress within language study is

accelerated by the new evidence since language systems are more precisely captured. Readers will enjoy the fresh perspective on linguistic questions made possible by the evidence-based approach.
