Nota di contenuto	Hysterick women and hypochondriack men -- The great Victorian eclipse -- Charcot and La grande hysterie masculine -- Male hysteria at the fin de siecle -- Freud and the origins of psychoanalysis.
Sommario/riassunto	Over the course of several centuries, Western masculinity has successfully established itself as the voice of reason, knowledge, and sanity - he basis for patriarchal rule - in the face of massive testimony to the contrary. This book boldly challenges this triumphant vision of the stable and secure male by examining the central role played by modern science and medicine in constructing and sustaining it.
