Sommario/riassunto	Lawrence Stenhouse was one of the most distinguished, original and influential educationalists of his generation. His theories about curriculum, curriculum development, pedagogy, teacher research, and research as a basis for teaching remain compelling and fresh and continue to be a counterpoint to instrumental and technocratic thinking in education. In this book, renowned educationalists describe Stenhouse's contribution to education, explore the contemporary

relevance of his thinking and bring his work and legacy to the attention of a wide range of students, teachers, teacher educators a
