Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Abbreviations; 1 Introduction; 2 Sentences and Clauses; 3 Clauses: Type, Combination, and Integration; 4 Noun Phrases: Complexity and Configuration; 5 Focus Constructions; 6 Focus Constructions: Clefts and like; 7 Historical Linguistics and Typology; 8 Written Language, First Language Acquisition, and Education; Epilogue; References; Postscript; Index
Sommario/riassunto	Jim Miller and Regina Weinert investigate syntactic structure and the organization of discourse in spontaneous spoken language. Using data from English, German, and Russian, they develop a systematic analysis of spoken English and highlight properties that hold across languages. The authors argue that the differences in syntax and the construction of discourse between spontaneous speech and written language bear on various areas of linguistic theory, apart from having obvious implications for syntactic analysis. In particular, they bear on typology, Chomskyan theories of first language acquisi
