| Sommario/riassunto      | This book makes a significant contribution towards understanding the new class structures of post-industrial societies and the changing processes of social stratification and mobility. Drawing together comparative research on the dynamics of social stratification in a number of key western societies, the authors develop a framework for the analysis of post-industrial class formation. They illustrate the   |

significance of the relations between the welfare state and the household, and the critical interface between gender and class. Case studies of the USA, the UK, Canada, Germany, No
