Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Book Cover; Title; Copyright; Contents
Sommario/riassunto	This groundbreaking volume addresses issues central to the study of prehistoric settlement including group memory, the transmission of ideology and the impact of mobility and seasonality on the construction of social identity. Building on these themes, the contributors point to new ways of understanding the relationship between settlement and landscape by replacing Capitalist models of spatial relations with more intimate histories of place.
