Nota di contenuto	Frontmatter -- Contents -- Preface -- Introduction -- Description of the Record -- Location Symbols -- Abbreviations -- Bibliography -- Part I. General -- Part II. Regions -- Part III. Cities and Towns -- Appendix A. Township Plans -- Appendix B. Registered Subdivision Plans -- Appendix C. Nautical Charts -- Appendix D. International Boundary Surveys -- Appendix E. Towns of Upper Canada Arranged by County -- Name Index -- Subject Index -- Title Index
Sommario/riassunto	The early face of what is now Ontario was documented in an extraordinary number of maps. Thousands of them have survived to the present day - maps of the area as a whole, its regions, and its cities and towns. In this bibliography Joan Winearls offers a guide to maps of the province of Upper Canada/Canada West, manuscript and printed, from the beginning of British settlement up to Confederation. Each entry includes a physical description of the map, brief annotations including associated documents and sources, and information about where the map is now found. The book as a whole provides a unique resource for

historians, geographers, genealogists, surveyors, archaeologists, and local history buffs. Appendices examine township surveys; registered plans of urban subdivisions, this describing much of the evolution of towns; nautical charts of the Great Lakes; and boundary surveys. The bibliography is fully indexed by author, place, and subject.
