   Sommario/riassunto The Italian community in Artificial Life and Evolutionary computation
                      has grown remarkably over the years. This book presents a collection
                      of its major interests and achievements (including contributions from
                      foreign countries). It provides a broad picture of the Italian activities in
                      this field.
