Sommario/riassunto	"Setting up a basic Joomla! Web site is easy; what comes next is hard and expensive--making the site do exactly what and look exactly how you want. With this book in hand, it is easy to adapt your site to bring your vision fully to life. This book will help you to separate your site from the crowd of other Joomla! sites without having to invest in developers. It will guide you through how to customize different parts and aspects of your site and will also show you how to turn your site into a profitable business via these customizations. You will be able to build a successful, professional web site that will adapt to all your business needs"--Resource description page.
