Environmental disputes in France; Chapter 9. Ecotourism and sustainability in the tourism sector; Chapter 10. The politics of waste, consumption and sustainability in the republic of Ireland
Sommario/riassunto	Advances in Ecopolitics series presents a collection of environmental alternatives worthy of consideration in light of the ongoing economic downturn which has accompanied the latest incarnation of unsustainable practices. Each publication discusses a significant element in the environmental theory which now represents an

important aspect of sustainable living. The latest volume, Global Ecological Politics, examines the range of environmental campaigns that are occurring across the planet. It showcases a selection of case studies on grassroots initiatives and activism in areas such as green eco
