Jeffrey -- Protecting forests to mitigate global climate change / Charlotte Streck.

Sommario/riassunto

Crucial Issues in Climate Change and the Kyoto Protocol: Asia and the World focuses on responses to climate change in the world's most populous region. This book provides the most comprehensive insight to the climate change discourse within Asia to date by drawing on the diverse disciplines and experience of legal practitioners, climate change consultants, government officials and academics. Individual chapters address issues such as how the various Asian countries - highly disparate in their cultures, socio-economic conditions and political systems - are responding to climate change,
