| Sommario/riassunto | China's accession to the WTO requires a great many specific policy reforms. However, if the best results are to be obtained, it is important that these reforms be implemented as part of a consistent development program, rather than simply by treating them as a recipe. To do this, policy makers must understand the range and nature of the policy |

changes required by accession, their implications for the economy, and the availability and effects of supporting policies. China and the WTO analyzes the nature of the reforms involved in China's accession to the WTO, assesses their implications for the
