

1. Record Nr.	UNINA9910455689503321
Titolo	Future materials science research on the international space station [[electronic resource] /] / Committee on Materials Science Research on the International Space Station ; National Materials Advisory Board, Commission on Engineering and Technical Systems, National Research Council
Pubbl/distr/stampa	Washington, D.C., : National Academy Press, 1997
ISBN	1-280-18710-7 9786610187102 0-309-59148-1 0-585-14466-4
Descrizione fisica	1 online resource (71 p.)
Disciplina	629.47/2
Soggetti	Materials - Effect of space environment on Materials - Effect of reduced gravity on Heat resistant materials Research in reduced gravity environments - Planning Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"NMAB-491."
Nota di bibliografia	Includes bibliographical references (p. 47-50).
