The Fifties and Sixties -- 7. Chips -- 8. Weaponizing Planned Obsolescence -- 9. Cell Phones and E-Waste -- Notes -- Acknowledgments -- Index
Sommario/riassunto	Made to Break is a history of twentieth-century technology as seen through the prism of obsolescence. Giles Slade explains how disposability was a necessary condition for America's rejection of tradition and our acceptance of change and impermanence. This book gives us a detailed and harrowing picture of how, by choosing to support ever-shorter product lives, we may well be shortening the future of our way of life as well.
