Sommario/riassunto	Multinational Investment and Economic Structure examines the relationship between industrial development and foreign direct investment (FDI) activities, and the interaction between multinational (MNE) activity and economic structures. It deals with the changing structure of the world economy as a whole, and the dynamics of the relationship between industrial development and the extent of FDI activities across countries. It evaluates the concurrent (and interrelated) evolutionary processes behind economic growth and MNE activity and

how these evolutionary forces impact on the economic
