

| | |
|-------------------------|--|
| 1. Record Nr. | UNINA9910455972503321 |
| Titolo | Beam technologies for integrated processing [[electronic resource]] : report of the Committee on Beam Technologies: Opportunities in Attaining Fully-Integrated Processing Systems, National Materials Advisory Board, Commission on Engineering and Technical Systems, National Research Council |
| Pubbl/distr/stampa | Washington, D.C., : National Academy Press, 1992 |
| ISBN | 1-280-21147-4 9786610211470 0-309-58395-0 0-585-14945-3 |
| Descrizione fisica | 1 online resource (101 p.) |
| Disciplina | 621.381 |
| Soggetti | Microelectronics industry Molecular beams - Industrial applications Microelectronics - Materials Plasma-enhanced chemical vapor deposition - Industrial applications Electronic books. |
| Lingua di pubblicazione | Inglese |
| Formato | Materiale a stampa |
| Livello bibliografico | Monografia |
| Note generali | "NMAB-461." |
| Nota di bibliografia | Includes bibliographical references. |
