

1. Record Nr.	UNINA9910455976103321
Autore	Anttalainen Tarmo
Titolo	Introduction to telecommunications network engineering / / Tarmo Anttalainen
Pubbl/distr/stampa	Boston : , : Artech House, , ©2003 [Piscataway, New Jersey] : , : IEEE Xplore, , [2003]
ISBN	1-58053-616-6
Edizione	[2nd ed.]
Descrizione fisica	1 online resource (397 p.)
Collana	Artech House telecommunications library
Disciplina	004.6 621.3821
Soggetti	Telecommunication systems Telecommunication Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Introduction to Telecommunications -- 2. The Telecommunications Network: An Overview -- 3. Signals Carried over the Network -- 4. Transmission -- 5. Mobile Communications --
Sommario/riassunto	Whether you are an executive or sales manager in a networking company, a data communications engineer, or a telecommunications professional, you must have a thorough working knowledge of the ever growing and interrelated array of telecom and data communications technologies. From protocols and operation of the Internet (IP, TCP, HTTP, ...) and its access systems such as ADSL, and GSM... to the basics of transmission and switching, this newly revised resource delivers an up-to-date introduction to a broad range of networking technologies, clearly explaining the networking essentials you need to
