Livello bibliografico	Monografia
Note generali	Bibliography: p189_205. _ Includes indexes.
Nota di bibliografia	Includes bibliographical references (p. [189]-205) and indexes.
Sommario/riassunto	Duo Qin has produced a study of a crucial period in the history of econometrics. She analyses the development of the theory and methodology between 1930 and 1960, arguing in particular that the "probability revolution" of the 1940's was incomplete, and resulted in later problems.
