

1. Record Nr.	UNINA9910456212403321
Titolo	Global perspective on tropical cyclones [[electronic resource]] : from science to mitigation // edited by Johnny C.L. Chan, Jeffrey D. Kepert
Pubbl/distr/stampa	Hackensack, N.J., : World Scientific, 2010
ISBN	1-282-76203-6 9786612762031 981-4293-48-2
Descrizione fisica	1 online resource (448 p.)
Collana	World Scientific series on Asia-Pacific weather and climate ; ; v. 4
Altri autori (Persone)	ChanJohnny C. L KepertJeffrey D
Disciplina	551.552
Soggetti	Cyclones - Tropics Electronic books. Tropics Climate Observations
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	pt. 1. Theory of tropical cyclones -- pt. 2. Observations of tropical cyclones -- pt. 3. Climate variations of tropical cyclone activity -- pt. 4. Forecasting of tropical cyclones -- pt. 5. Hydrological aspects of tropical cyclones -- pt. 6. Societal impacts of tropical cyclones.
Sommario/riassunto	This book is a completely rewritten, updated and expanded new edition of the original ""Global Perspectives on Tropical Cyclones"" published in 1995. It presents a comprehensive review of the state of science and forecasting of tropical cyclones together with the application of this science to disaster mitigation, hence the tag: From Science to Mitigation. Since the previous volume, enormous progress in understanding tropical cyclones has been achieved. These advances range from the theoretical through to ever more sophisticated computer modeling, all underpinned by a vast and growing range of
