Conclusions and guidelines for policy: Seeking Thachsanh's inexhaustible rice bowl in the 21st century -- Backmatter |
| Sommario/riassunto | In this book, the author focuses on the intersection of two major bodies of policy and practice: knowledge economy and ICTs on one hand, and sustainable economic development on the other. It aims to provide a |

broad-ranging account of the social and economic terrain demarcated by this intersection in order to reach conclusions and offer guidelines for policy development. Although based on the case of a developing country (Vietnam) its analyses, arguments and conclusions are of universal relevance. Key features comprehensive picture of a society from the perspective of knowledge for development
