

1. Record Nr.	UNINA9910456263103321
Titolo	Randomness through computation [[electronic resource] ] : some answers, more questions / / editor, Hector Zenil
Pubbl/distr/stampa	Hackensack, N.J., : World Scientific, 2011
ISBN	1-283-14860-9 9786613148605 981-4327-75-1
Descrizione fisica	1 online resource (439 p.)
Altri autori (Persone)	ZenilHector
Disciplina	003.54 519.2
Soggetti	Stochastic processes Computational complexity Random polynomials Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and indexes.
Nota di contenuto	pt. 1. Stochastic randomness and probabilistic deliberations -- pt. 2. Randomness and computation in connection to the physical world -- pt. 3. Algorithmic inference and artificial intelligence -- pt. 4. Randomness, information and computability -- pt. 5. Computational complexity, randomized algorithms and applications -- pt. 6. Pannel discussions (transcriptions).
Sommario/riassunto	This review volume consists of an indispensable set of chapters written by leading scholars, scientists and researchers in the field of Randomness, including related subfields specially but not limited to the strong developed connections to the Computability and Recursion Theory. Highly respected, indeed renowned in their areas of specialization, many of these contributors are the founders of their fields. The scope of "'Randomness Through Computation'" is novel. Each contributor shares his personal views and anecdotes on the various reasons and motivations which led him to the study of the su
