Nota di contenuto	Preliminary Material / D. M. Moffitt -- Chapter One. Introduction: The Riddle Of Hebrews' Silence About The Resurrection / D. M. Moffitt -- Chapter Two. Angels, Anthropology, And The Age To Come In Hebrews 1-2 / D. M. Moffitt -- Chapter Three. Jesus' Resurrection, Ascension, And Heavenly High Priesthood In Hebrews / D. M. Moffitt -- Chapter Four. Jesus' Resurrection Life And Hebrews' Christological And Soteriological Appropriation Of Yom Kippur / D. M. Moffitt -- Chapter Five. Conclusion / D. M. Moffitt -- Bibliography / D. M. Moffitt -- Index Of Ancient Literature / D. M. Moffitt -- Index Of Names / D. M. Moffitt -- Subject Index / D. M. Moffitt.
Sommario/riassunto	Scholars often explain Hebrews' relative silence regarding Jesus' resurrection by emphasizing the author's appeal to Yom Kippur's two key moments—the sacrificial slaughter and the high priest's presentation of blood in the holy of holies—in his distinctive portrayal of Jesus' death and heavenly exaltation. The writer's depiction of Jesus as the high priest whose blood effected ultimate atonement appears to be modeled upon these two moments. Such a typology discourages discrete reflection on Jesus' resurrection. Drawing on contemporary studies of Jewish sacrifice (which note that blood represents life, not

death), parallels in Jewish apocalyptic literature, and fresh exegetical insights, this volume demonstrates that Jesus' embodied, resurrected life is crucial for the high-priestly Christology and sacrificial soteriology developed in Hebrews.

2. Record Nr.	UNINA9910157458003321
Autore	Bedoyere Camilla De La
Titolo	Animal migrations
Pubbl/distr/stampa	Wayland
ISBN	0-7502-8758-6
Descrizione fisica	1 online resource (32 p.)
Collana	Epic
Disciplina	591.568
Soggetti	Animal migration Migratory animals
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Epic: Animal Migrations focuses on 12 of the most remarkable animal migrations in the world, from the monarch butterfly, which weighs no more than a pea, but journeys all the way across North America each year, to the leatherback turtle, which migrates across an entire ocean to breed. Infographic elements on each spread present information in a simple and highly visual way. Clear, concise text and a bright, appealing design make the book the perfect resource for project work on habitats, adaptation, genetics and inheritance, or simply a great leisure read, for children aged 9 and above. The book details the timespan and location of each migration, the reasons involved and the method used. A timeline on every spread gives the time frame for each migration, and what happens when. Additional background information to each animal is also provided, including the wildebeest, the Arctic tern, the caribou, the gray whale, the European eel, the Sockeye salmon, the dragonfly, the straw-coloured fruit bat, zooplankton and the Christmas Island red crab. Epic: Animal Migrations also looks at the</p>

science behind each migration, and how the animals know where and when to go. For more epic events, try reading the other titles in the Epic series: Battles, Empires and Explorers.
