Sommario/riassunto	This book investigates what was distinctive about the predisposition to psychosis Freud posited in Daniel Paul Schreber, a presiding judge in Saxony's highest court. It argues that Freud's 1911 Schreber text reversed the order of priority in late nineteenth-century conceptions of

the disposing causes of psychosis - the objective-biological and subjective-biographical - to privilege subjective disposition to psychosis, but without returning to the paradigms of early nineteenth-century Romantic psychiatry and without obviating the legitimate claims of biological psychiatry in relation to heredit
