Sommario/riassunto	"By Platonism," the author clarifies, "is meant not Neo-Platonism of any kind, but the leading principles of Plato's doctrine, which I have tried to see in close connexion with himself as he is presented in his own writings." The critique here presented of Plato's work is never independent of Plato as a man or Plato as philosopher, but rather enables Pater to study the close relation between author and text. The diversity of areas covered is in itself a fine achievement, and Pater is able to ...
