Nota di contenuto	Frontmatter -- Contents -- Introduction -- General/Canada -- Area Bibliographies -- Arts and Humanities -- Social Sciences -- Sciences and Applied Sciences -- Types of Material Bibliographies -- Catalogues/Collections -- Individuals -- Indexes -- Appendices
Sommario/riassunto	This is a completely revised and updated third edition of a standard Canadian reference work that was last published twenty years ago. This new edition has over 7300 entries, with four separate indexes: author, title, English subject, and French subject. In addition, a short-title entry listing provides alternate access to the classified arrangement of the main body of work. Annotation for each entry has been broadened to include: number of entries, if evident; the period or subject, if not evident from the title; a summary of scope; names of compilers, if all are not listed in the main entry; number of pages, volume numbers if applicable; other editions or reprints if any; source title variations if

significant; other language titles and form of bilingual presentation; periodicity; and known location. This comprehensive and exhaustive bibliography of published bibliographies will be invaluable to librarians and researchers.
