Outcomes of Reform: Rural Incomes and Poverty; Chapter 06. Conclusion: Looking Beyond Agrarian Reform in Azerbaijan; Statistical Annex; References; Index; About the Authors
Sommario/riassunto	The book demonstrates that reform policies_including privatization of land and the shift from collective to individual farming_have a significant impact on agricultural growth, rural incomes, and poverty

alleviation. The analysis spans more than 40 years of agricultural and rural development in Azerbaijan, based on country-level statistical data and original farm and household surveys.
