Descrizione fisica	1 online resource (256 p.)
Disciplina	128.092
Soggetti	Human beings Philosophical anthropology Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Kant's virtue ethics -- Moral strength : virtue as a duty to oneself -- Kantian moral humility : between Aristotle and Paul -- "Firm as rock in her own principles" : (but not necessarily a Kantian) -- The second part of morals -- Applying Kant's ethics : the role of anthropology -- Anthropology from a Kantian point of view : toward a cosmopolitan conception of human nature -- Making the law visible : the role of examples in Kant's ethics -- Evil everywhere : the ordinariness of Kantian radical evil -- "The play of nature" : human beings in Kant's geography -- Becoming human : Kant and the philosophy of education -- National character via the beautiful and sublime?
Sommario/riassunto	In Kant's Human Being, Robert B. Louden continues and deepens avenues of research first initiated in his highly acclaimed book, Kant's Impure Ethics. Drawing on a wide variety of both published and unpublished works spanning all periods of Kant's extensive writing career, Louden here focuses on Kant's under-appreciated empirical work on human nature, with particular attention to the connections between this body of work and his much-discussed ethical theory. Kant repeatedly claimed that the question, ""What is the human being"" is

philosophy's most fundamental question, one that encompasses al
