Sommario/riassunto	The new, completely revised, and updated edition of this classic text -- sponsored by the International Epidemiological Association (IEA) and previously edited by John Last-- remains the definitive dictionary in epidemiology worldwide. In fact, with contributions from over 220 epidemiologists and other users of epidemiology from around the globe, it is more than a dictionary: it includes explanations and comments on both core epidemiologic terms and on other scientific terms relevant to all professionals in clinical medicine and public health, as well as to professionals in the other health, li
