Titolo	Canadian nuclear energy policy : changing ideas, institutions, and interests / / edited by G. Bruce Doern, Arslan Dorman, Robert W. Morrison
Pubbl/distr/stampa	Toronto, [Ontario] ; ; Buffalo, [New York] ; ; London, [England] : , : University of Toronto Press, , 2001 ©2001
ISBN	1-4426-7226-9
Descrizione fisica	1 online resource (231 p.)
Disciplina	333.792/4/0971
Soggetti	Nuclear energy - Government policy - Canada Nuclear energy - Government policy - Ontario Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Drafts of the chapters, along with other papers, were presented at the CRUISE Conference on the Future of Nuclear Energy in Canada, held in Ottawa, Sept. 30-Oct. 1, 1999.
Nota di bibliografia	Includes bibliographical references at the end of each chapters.
Nota di contenuto	Frontmatter -- Contents -- Preface -- Abbreviations -- Chapter One. Precarious Opportunity: Canada's Changing Nuclear Energy Policies and Institutional Choices / Doern, Bruce / Dorman, Arslan / Morrison, Robert -- Chapter Two. Global Nuclear Markets in the Context of Climate Change and Sustainable Development / Morrison, Robert -- Chapter Three. Nuclear Power and Deregulation in the United Kingdom / Thomas, Steve -- Chapter Four. Transforming AECL into an Export Company: Institutional Challenges and Change / Doern, Bruce / Dorman, Arslan / Morrison, Robert -- Chapter Five. Nuclear Regulation in Transition: The Atomic Energy Control Board / Jackson, David / Mothe, John de la -- Chapter Six. Nuclear Fuel Waste Policy in Canada / Brown, Peter A. / Létourneau, Carmel -- Chapter Seven. Ontario's Role in Nuclear Energy / Jennings, Rick / Chute, Russell -- Chapter Eight. The Future of Nuclear Power in a Restructured Electricity Market / Dewees, Donald N. -- Chapter Nine. Power Switch: The Ontario Energy Board in the New Electricity Regime / Doern, Bruce -- Chapter Ten. Conclusions / Doern, Bruce / Dorman, Arslan / Morrison, Robert --

Sommario/riassunto

What influences have changed Canadian nuclear policy over the past twenty years? What will be the future issues of choice and change? Focusing on the federal government, but with special attention given to key changes in Ontario - Canada's main nuclear province - the analytical core of this book identifies five key nuclear energy choices and challenges that face the federal government and other Canadian policy makers: Who is responsible for nuclear R&D and waste management? What models of regulation will govern nuclear energy's future? What are Canada's prospects for, and commitments surrounding, the marketing of CANDU reactors abroad? Is a renewed Federal-Ontario nuclear partnership likely? Can there be said to be a growing trust level between the Canadian public and the institutions that govern nuclear energy in Canada, and abroad? Linking changes in Canada with broader comparative change in the United States, United Kingdom and Germany, as well countries such as South Korea and China, which have purchased CANDU reactors from Canada, the author's conclude that Canada's nuclear future is one of precarious opportunity and federal nuclear policy must learn to come to terms with a much broader range of issues and actors than ever before.

Sommario/riassunto	Becoming Bourgeois is the first study to focus on what historians have come to call the ""middling sort,"" the economic group falling between yeoman farmers and the planter class that dominated the antebellum South. At a time when Southerners rarely traveled far from their homes, these merchants annually ventured forth on buying junkets to northern cities. The southern merchant community promoted the kind of aggressive business practices that proponents of the ""New South"" would later claim as their own. Frank J. Byrne reveals the peculiar strains of modern liberal-capitalist and conservat
