Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Contents; Preface; Introduction: The Anime Machine; Part I. Multiplanar Image; Part II. Exploded View; Part III. Girl Computerized; Conclusion: Patterns of Serialization; Notes; Bibliography; Index
Sommario/riassunto	Despite the longevity of animation and its significance within the history of cinema, film theorists have focused on live-action motion pictures and largely ignored hand-drawn and computer-generated movies. Thomas Lamarre contends that animation demands sustained engagement, and in The Anime Machine he lays the foundation for a new critical theory for reading Japanese animation, showing how anime fundamentally differs from other visual media.
