Sommario/riassunto	This book provides an analysis of the passive phenomenon in general and of Norwegian passive constructions in particular. Related topics such as English passive constructions and Norwegian ergative constructions are also examined. The analysis is carried out within a Government and Binding framework. Chapter 1 contains a very brief introduction to GB syntax and a description of the passive phenomenon and its manifestation in Norwegian. The "orthodox analysis" of the passive as proposed in Chomsky's Lectures on Government and Binding is contrasted with the "new analysis", which claims that "the
