Sommario/riassunto	Joint winner - Richard Asher Prize for the best new medical textbook, RSM/Society of Authors Book Awards 2005Highly commended in the 2005 BMA Medical Book Awards: Basic and Clinical Sciences category"A wonderful book, very appropriate, written with extremely good, didactic and smart illustrations! Clinical anatomy at its best!" - Dr Ludmilla Stane, Institute for Anatomy, Dusseldorf.The publication of this new textbook in 2005 represented a major advance in the integration of anatomy teaching with the study of clinical medicine. This new edition builds on this well-received approach, bringing the content entirely up to date with increased emphasis on the conditions most commonly encountered by medical students and junior clinicians in training.
