Sommario/riassunto	The book "Gender and Governance in Rural Services: Insights from India, Ghana and Ethiopia" provides policy-relevant knowledge on strategies to improve agricultural and rural service delivery with a focus on providing more equitable access to these services, especially for women. It focuses India, Ethiopia, and Ghana, and focuses on two public services: agricultural extension, as an example of an agricultural service, and on drinking water, as an example of rural service that is not directly related to agriculture but is of high relevance for rural women. It provides empirical microlevel evidence
