

1. Record Nr.	UNINA9910456727403321
Autore	Josefsson Gunlog
Titolo	Minimal Words in a Minimal Syntax [[electronic resource]] : Word formation in Swedish
Pubbl/distr/stampa	Amsterdam/Philadelphia, : John Benjamins Publishing Company, 1998
Descrizione fisica	1 online resource (209 p.)
Collana	Linguistik Aktuell/Linguistics Today
Disciplina	439.75
Soggetti	Swedish language -- Congresses Swedish language -- Word formation Swedish language Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	CONTENTS; 1. Introduction; 2. Background theories; 3. A sketch of the principal ideas; 4. Compounds; 5. Derivation by means of suffixation; 6. Derivation by means of prefixation; 7. Past participles; 8. Head of a word; 9. The universality of word formation principles; 10. Some notes on the lexicon; 11. Summary; References; Index
Sommario/riassunto	In Minimal Words in a Minimal Syntax the author combines a detailed description of the morphological structure of words in Swedish with a daring new approach to theoretical morphology, based on the Minimalist Program of Chomsky (1995) (as developed for syntactic structure). The X-bar theoretic approach to word structure of the Principles and Parameters framework is replaced by a rule free approach incorporating only Merge and Move as structure building devices. The author argues that stems have no word class features, which are provided inflectional affixes (including theme vowels etc.)
