

1. Record Nr.	UNINA9910456730503321
Autore	Wali Kameshwar C
Titolo	A Scientific Autobiography [[electronic resource]] : S Chandrasekhar
Pubbl/distr/stampa	Singapore, : World Scientific Publishing Company, 2011
ISBN	1-283-14837-4 9786613148377 981-4299-59-6
Descrizione fisica	1 online resource (296 p.)
Disciplina	523.0109
Soggetti	Astrophysicists -- United States -- Biography Astrophysicists -- United States -- Correspondence Chandrasekhar, S. (Subrahmanyan), 1910-1995 -- Correspondence Chandrasekhar, S. (Subrahmanyan), 1910-1995 Astrophysicists - United States Astronomy & Astrophysics Physical Sciences & Mathematics Astronomy - General Astrophysics Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Dedication; Foreword by Kameshwar C. Wali; Preface by S. Chandrasekhar; Contents; I. A History of My Papers on "Radiative Equilibrium" (1943-1948); II. Turbulence; Hydromagnetism (1948-1960); III. The Development of the Virial Method and Ellipsoidal Figures of Equilibrium (1960-1970); IV. General Relativity (1962-1969); V. The Fallow Period (1970-1974); VI. General Relativity; Ryerson Lecture; Separation of Dirac Equation (January 1975-August 1977); VII. General Relativity; Kerr-Newman Perturbations (August 1977-December 1978); VIII. 1979 - A Year of Failures and of Obligations IX. 1980, 1981: The Mathematical Theory of Black HolesX. POSTSCRIPT: 1982, a Year that Passed; XI. The Beginning of the End (1983-1985); XII. Continued Efforts I (September 1985-May 1987); XIII. Continued

Efforts II (May 1987-September 1989); XIV. Continued Efforts III (September 1989-October 1991); XV. Continued Efforts IV (November 1991-December 1994); Notes & Comments by Kameshwar C. Wali

Sommario/riassunto

S. Chandrasekhar, popularly known as Chandra, was one of the foremost scientists of the 20th century. The year 2010 marks the birth centenary of Chandra. His unique style of research, inward bound, seeking a personal perspective to master a particular field, and then pass on to another was so unique that it will draw considerable interest and attention among scholars. As Chandra elucidates in the preface, the various installments describe in detail the evolution of my scientific work during the past forty years and records each investigation, describing the doubts and the successes, the trials
