	Sommario/riassunto	This volume contains seven synchronic and diachronic empirical investigations into the expression and conceptualization of linguistic action in English, focusing on figurative extensions. The following issues are explored: Source domains, and their relation to the complexities of linguistic action as a target domain. The role of

axiological parameter, the experiential grounding of metaphors expressing value judgements and the part played by image-schemata, how value judgements come about and their socio-cultural embedding. The graded character of metaphoricity and its corr
