Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	pt. 1. Contemporary views and findings -- pt. 2. Treatment and prevention innovations.
Sommario/riassunto	In recent years, much has occurred in the field of traumatology, including the widening of the audience and the awareness of PTSD (post-traumatic stress disorder). This book from celebrated traumatology pioneer Charles Figley, further clarifies the concept of compassion fatigue through theory, research, and treatment. The basic thesis of this book is the identification, assessment, and treatment of compassion fatigue and this is done over eleven chapters, each from distinguished researchers in the field.
