Sommario/riassunto

This volume contains fifteen articles on current theoretical issues in Basque and Romance linguistics. Even though Basque and Romance languages are typologically different and have different genetic origins, one thousand years of coexistence have shown certain parallelisms in their respective grammars. It is Mario Saltarelli that first offered a formal linguistic account of phonological and syntactic phenomena that occur in these two language groups. Thus, this compilation of articles in both Basque and Romance linguistics not only pays tribute to Saltarelli's work by acknowledging his formali
