Sommario/riassunto	Rita M. Gross has long been acknowledged as a founder in the field of feminist theology. One of the earliest scholars in religious studies to

discover how feminism affects that discipline, she is recognized as preeminent in Buddhist feminist theology. The essays in *A Garland of Feminist Reflections* represent the major aspects of her work and provide an overview of her methodology in women's studies in religion and feminism. The introductory article, written specifically for this volume, summarizes the conclusions Gross has reached about gender and feminism after forty years of searching and exploring, and the autobiography, also written for this volume, narrates how those conclusions were reached. These articles reveal the range of scholarship and reflection found in Rita M. Gross's work and demonstrate how feminist scholars in the 1970's shifted the paradigm away from an androcentric model of humanity and forever changed the way we study religion.
