Sommario/riassunto	In an age when the Western world is preoccupied with worries about weapons of mass destruction in terrorist hands, terrorists across many parts of the globe are using a more basic device as a weapon - life itself. Suicide bombing has become a weapon of choice among terrorist groups because of its lethality and unrivalled ability to cause mayhem and fear, but what is the real driving force behind these attacks? For the first time, Suicide Bombings analyzes concrete data from The Suicide Terrorism Database at Flinders University, Australia, to explain what motivates the
