This edited collection draws together diverse international work on formulaic language such as idioms, collocations, lexical bundles and phrasal verbs. Formulaic sequences are more or less fixed word combinations such as idioms, collocations, lexical bundles, phrasal verbs and so on. Study in this area has grown over the past fifteen years, despite the fact that there are no academic journals or conferences devoted to this topic. This edited collection is an attempt to draw together the diverse international work on formulaic language. It features an introduction by Dr Regina Weinert, a pioneer
