| Sommario/riassunto | Governments confront difficult political choices when they must determine how to balance their spending. But what would happen if a government found a means of spending without taxation? In this book, Gene Park demonstrates how the Japanese government established and mobilized an enormous off-budget spending system, the Fiscal Investment Loan Program (FILP), which drew on postal savings, public pensions, and other funds to pay for its priorities and reduce demands on the budget. Park's book argues that this system underwrote a distinctive postwar political bargain, one that eschewed |
