Sommario/riassunto	A fast-paced ride through the world of hedge funds revealing the unvarnished truth of how Wall Street really operates, and how to use this to your advantage. An insider's view of the high stakes world of money management, Diary of a Hedge Fund Manager is both a practical guide for investors and the deeply personal story of a man who knows the system inside and out. One of the best young portfolio managers on Wall Street, and helping to run the hedge fund operation of one of the world's most prestigious firms, Keith McCullough finds himself a lone voice of reason as the economic crisis of 2008 looms
