| Sommario/riassunto      | Pythagoras and Heraclitus developed theories of the universe and mankind's place in it which were taken seriously by all later Greek thinkers. None of their works remains, however, except in later paraphrases that all too often are misrepresentations. Pythagoras had followers who attributed their own ideas to their master; Heraclitus wrote in a prose style so ambiguous that he came to be known as the Shadow, so that even the most earnest attempts to paraphrase his views had to smooth out his intentional rough edges. Nonetheless, enough remains to allow the authors of this volume, edited by David Sider and Dirk Obbink (Oxford), to offer new ways of viewing their views and the way others perceived them. The contributors are Gábor |

Betegh (Budapest), Roman Dilcher (Heidelberg), Aryeh Finkelberg (Tel Aviv), Daniel Graham (Brigham Young University), Herbert Granger (Wayne State University), Carl Huffman (DePauw), Enrique Hülsz Piccone (Mexico City), Anthony Long (Berkeley), Richard McKirahan (Pomona), Catherine Rowett (East Anglia), David Sider (New York), and Leonid Zhmud (St. Petersburg).

### Sommario/riassunto

This is a story from inside the child psychologist's room. Victor, who is two and a half years old, has lost his mother and younger brother in a car accident. He is 'sunny and happy' and does not cry. He is a child in deep crisis and comes for a crisis therapy. In this book we will follow Victor for his fifteen treatment sessions. He shows through play and activities how he is followed and piloted through his grief by his therapist. The healing by play therapy is depicted in words and pictures out of the perspective of both patient and therapist. The crisis therapy will work as the first link into a new future. In spite of the tragic reasons for the meetings, A Big and a Little One is Gone is a documentary story which brings both hope and courage.
