and the European Neighbourhood Policy

| Sommario/riassunto | This book advances a novel interpretation of EU governance. Its central claim is that the EU's regulatory successes within-and increasingly beyond-its borders rest on the emergence of a recursive process of framework rule making and revision by European and national actors across a wide range of policy domains. In this architecture, framework goals and measures for gauging their achievement are established by joint action of the Member States and EU institutions. Lower-level unitsare given the freedom to advance these ends as they see fit. But in return for this autonomy, they must report regu |
