Sommario/riassunto	While many film programs prepare students for the realities of Hollywood, comparatively little guidance is provided for the aspiring documentary filmmaker. Alan Rosenthal fills this void with <i>Succeeding as a Documentary Filmmaker: A Guide to the Professional World</i> . Unlike traditional manuals on documentary film making, which focus primarily on the creation of films, this user-friendly volume draws upon real-world examples and the advice of experienced filmmakers to provide essential information about the nonfiction movie business. From the basics of the current film business
