Sommario/riassunto	This book deals with issues in economic development in India. It highlights those factors that are indicative of India's emergence in the global economy yet indicates negative ""trickle down"" effects, such as malnutrition, poverty, bonded labourers, high adult unemployment and the widespread use of child labour. Focusing on structural deficiencies

for a steady growth rate, and how to make growth inclusive, the book examines duality in development and the factors standing between national economic prosperity and human development. The author analyses issues concerning international t
