Sommario/riassunto	The first book of its kind internationally, Border Sexualities, Border Families in Schools explores the experiences of bisexual students, mixed sexual orientation families, and polyamorous families in schools. For the first time, a book foregrounds the voices and experiences of these students and families who are ""falling into the gaps"" or on the borders of a school's gay/straight divide in anti-homophobia policies and programs, and schools recognizing families as meaning either heterosexual couples, or, increasingly, homosexual couples.
