

1. Record Nr.	UNINA9910457262103321
Titolo	Sustaining large marine ecosystems [[electronic resource]] : the human dimension / / edited by Timothy M. Hennessey, Jon G. Sutinen
Pubbl/distr/stampa	Amsterdam, : Elsevier, 2005
ISBN	1-280-63085-X 9786610630851 0-08-045970-6
Edizione	[1st ed.]
Descrizione fisica	1 online resource (381 p.)
Collana	Large marine ecosystems, , 1570-0461 ; ; v. 13
Altri autori (Persone)	HennesseyTimothy M SutinenJon G
Disciplina	577.7 333.95616
Soggetti	Marine ecology - Management Marine resources - Management Ecosystem management Ecosystem health - Economic aspects Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Large marine ecosystems, social theory and LME management methodology -- pt. 2. Economic activity and the cost of ownership -- pt. 3. The role of governance and institutions.
Sommario/riassunto	The shift away from the management of individual resources to the broader perspective of ecosystems is no longer confined to academia and think tanks where it first began; the ecosystem paradigm also is beginning to take root in government policy and programs. This volume provides innovative and timely approaches for improving and sustaining socioeconomic benefits from LMEs. The authors describe methodologies and actions for moving forward in halting the downward resource sustainability spiral and advancing toward the recovery of depleted fish stocks, restoration of degraded habitats, and r
